

## PRIVACY IMPACT ASSESSMENT 2008

### INTRODUCTION:

*Congress passed the E-Government Act of 2002 to encourage the use of Web-based Internet applications or other information technology by Government agencies, with the intention of enhancing access to government information and services and increasing the effectiveness, efficiency, and quality of government operations.*

*To combat public concerns regarding the disclosure of private information, the E-Government Act mandated various measures, including the requirement that Federal agencies conduct a Privacy Impact Assessment (PIA) for projects with information technology systems that collect, maintain, and/or disseminate "personally identifiable information" of the public. Personally identifiable information, or "personal information," is information that may be used to identify a specific person. Appendix A, "Applicable Legal and Regulatory Requirements" summarizes the applicable legal and regulatory requirements that are addressed by the PIA process.*

*Update regarding PIV projects: Federal Information Processing Standards Publication (FIPS PUB) 201 Personal Identity Verification (PIV) of Federal Employees and Contractors and subsequent OMB guidance explicitly require PIAs for PIV projects collecting any personal data, not just of the public.*

*Primary Privacy Impact Assessment objectives include:*

*o Ensure and promote the trust and confidence of Veterans and the general public.*

*o Ensure compliance with the eGov Act and other applicable privacy laws, regulations and policies, including the PIV regulations.*

*o Identify the risks and adverse effects of collecting, maintaining and disseminating personal information in electronic information systems.*

*o Evaluate and develop protections and alternative processes for handling information to mitigate potential privacy risks.*

*Additional important objectives include:*

*o Provide a mechanism for ensuring responsibility and accountability for privacy issues.*

*o Provide documented assurance that privacy, security and other vital data stewardship considerations are integrated into information technology systems, starting with the initial outlining of a project's objectives and data usage requirements and continuing through design, operation, maintenance and disposal.*

*o Ensure that decision-makers are provided the information required to make informed system design or procurement decisions, based on an understanding of privacy risk, and of options available for mitigating that risk.*

*o Greatly reduce the risk of needing to interrupt a program or service because privacy and other vital data stewardship considerations were not adequately addressed before the program or service was implemented.*

*o Promote awareness and understanding of privacy issues.*

*o Provide valuable documentation on the flow of personal information, and related privacy considerations and design decisions.*

*Completion of this PIA Form:*

*o Part I (Sections 1 and 2) of this form must be completed for all projects. Part I documents basic project information and establish whether a full PIA is required.*

*o This entire PIA Form (Parts I and II) must be completed/updated every year for all projects with*

information technology (IT) systems that collect, maintain, and/or disseminate “personally identifiable information” information that may be used to identify a specific person of the public, OR is a PIV project.

*Important Note: While this form provides detailed instructions for completing a Privacy Impact Assessment for your project, support documents that provide additional guidance are available on the OCIS Portal (VA network access required).*

## **Part I. Project Identification and Determination of PIA Requirement**

### **1. PROJECT IDENTIFICATION:**

#### **1.1) Project Basic Information:**

1.1.a) Project or Application Name:

1.1.b) OMB Unique Project Identifier:

#032

1.1.c) Concise Project Description

*Provide a concise description of the project. Your response will be automatically limited to approximately 200 words, and should provide a basic understanding of the project, and its most essential elements. (If applicable, use of personal data is to be described in Section 3.)*

1.1.d) Additional Project Information (Optional)

*The project description provided above should be a concise, stand-alone description of the project. Use this section to provide any important, supporting details.*

#### **1.2) Contact Information:**

**1.2.a) Person completing this document:**

**Title:**

**Organization:**

**Telephone Number:**

**Email Address:**

**1.2.b) Project Manager:**

**Title:**

**Organization:**

**Telephone Number:**

<b>Email Address:</b>	
<b>1.2.c) Staff Contact Person:</b>	
<b>Title:</b>	
<b>Organization:</b>	
<b>Telephone Number:</b>	
<b>Email Address:</b>	

*ADDITIONAL INFORMATION: If appropriate, provide explanation for limited answers, such as the development stage of project.*

### 2. DETERMINATION OF PIA REQUIREMENTS:

A privacy impact assessment (PIA) is required for all VA projects with IT systems that collect, maintain, and/or disseminate personally identifiable information (PII) of the public, not including information of Federal employees and others performing work for VA (such as contractors, interns, volunteers, etc.), unless it is a PIV project. All PIV projects collecting any PII must complete a PIA. PII is any representation of information that permits the identity of an individual to be reasonably inferred by either direct or indirect means. Direct references include: name, address, social security number, telephone number, email address, financial information, or other identifying number or code. Indirect references are any information by which an agency intends to identify specific individuals in conjunction with other data elements. Examples of indirect references include a combination of gender, race, birth date, geographic indicator and other descriptors.

2.a) Will the project collect and/or maintain personally identifiable information in IT systems?

Yes

2. b) Is this a PIV project collecting PII, including from Federal employees, contractors, and others performing work for VA?

Yes

**If "YES" to either question then a PIA is required for this project. Complete the remaining questions on this form. If "NO" to both questions then no PIA is required for this project. Skip to section 13 and affirm.**

2.c) Has a previous PIA been completed within the last three years?

Yes 6/23/06 – PIA For Fingerprint System Clarification

2.d) Has any changes been made to the system since last PIA?

No

**ADDITIONAL INFORMATION:** (Provide any necessary clarifying information or additional explanation for this section.)

No

## Part II. Privacy Impact Assessment

<b>3. PROJECT DESCRIPTION:</b>
<i>The purpose of NIST SP 800-60 is to address recommending the types of information and information systems to be included in each category of potential security impact. Using NIST SP800-60, enter the information requested to describe the project.</i>
<i>3.a) Provide a concise description of why personal information is maintained for this project, such as determining eligibility for benefits or providing patient care.</i>
Providing patient health care
<i>3.b) What specific legal authorities authorize this project, and the associated collection, use, and/or retention of personal information?</i>
Title 5 USC, Title 38 USC, Privacy Act of 1974
<i>3.c) Identify, by selecting the appropriate range from the list below, the approximate number of individuals that (will) have their personal information stored in project systems.</i>
???
<i>3.d) Identify what stage the project/system is in: (1) Design/Planning, (2) Development/Implementation, (3) Operation/Maintenance, (4) Disposal, or (5) Mixed Stages.</i>
(3) Operation/Maintenance
<i>3.e) Identify either the approximate date (MM/YYYY) the project/system will be operational (if in the design or development stage), or the approximate number of years that the project/system has been in operation.</i>

4. SYSTEM OF RECORDS:
<i>The Privacy Act of 1974 (Section 552a of Title 5 of the United States Code) and VA policy provide privacy protections for employee or customer information that VA or its suppliers maintain in a System of Records (SOR). A SOR is a file or application from which personal information is retrieved by an identifier (e.g. name, unique number or symbol). Data maintained in a SOR must be managed in accordance with the requirements of the Privacy Act and the specific provisions of the applicable SOR Notice. Each SOR Notice is to be published in the Federal Register. See VA Handbook 6300.5 "Procedures for Establishing &amp; Managing Privacy Act Systems Of Records", for additional information regarding Systems of Records.</i>
4.a) Will the project or application retrieve personal information on the basis of name, unique number, symbol, or other identifier assigned to the individual?
<b>If "No" then skip to section 5, 'Data Collection'.</b>
Yes
4.b) Are the project and/or system data maintained under one or more approved System(s) of Records?
<b>IF "No" then SKIP to question 4.c.</b>
Yes
4.b.1) For each applicable System of Records, list:

(1) The System of Records identifier (number),
24VA19, 23VA163, 97VA105, 121VA19
(2) The name of the System of Records, and
24VA19 – Patient Medical Records-VA, 23VA163 Non-VA Fee Basis Records-VA, 97VA105 Consolidated Data Information System, 121VA19 National Patient Databases-VA
(3) Provide the location where the specific applicable System of Records Notice(s) may be accessed (include the URL).
<a href="http://vaww.vhaco.va.gov/privacy/update_sor">http://vaww.vhaco.va.gov/privacy/update_sor</a>
<b>IMPORTANT: For each applicable System of Records Notice that is not accessible via a URL: (1) Provide a concise explanation of why the System of Records Notice is not accessible via a URL in the "Additional Information" field at the end of this section, and (2) Send a copy of the System of Records Notice(s) to the Privacy Service.</b>
4.b.2) Have you read, and will the application comply with, all data management practices in the System of Records Notice(s)?
Yes
4.b.3) Was the System(s) of Records created specifically for this project, or created for another project or system?
Created for another project or system
If created for another project or system, briefly identify the other project or system.
Electronic Medical records (VISTA CPRS) for patient care
4.b.4) Does the System of Records Notice require modification?
<b>If "No" then skip to section 5, 'Data Collection'.</b>
No
4.b.5) Describe the required modifications.
4.c) If the project and/or system data are not maintained under one or more approved System(s) of Records, select one of the following and provide a concise explanation.

#### 5. DATA COLLECTION:

<b>5.1 Data Types and Data Uses</b>
<p><i>FIPS 199 establishes security categories for both information and information systems. The security categories are based on the potential impact on an organization should certain events occur which jeopardize the information and information systems needed by the organization to accomplish its assigned mission, protect its assets, fulfill its legal responsibilities, maintain its day-to-day functions, and protect individuals. Security categories are to be used in conjunction with vulnerability and threat information in assessing the risk to an organization. Identify the types of personal information collected and the intended use(s) of that data:</i></p>
<p><i>a) Select all applicable data types below. If the provided data types do not adequately describe a specific data collection, select the "Other Personal Information" field and provide a description of the information.</i></p>
<p><i>b) For each selected data type, concisely describe how that data will be used.</i></p>
<p><i>Important Note: Please be specific. If different data types or data groups will be used for different purposes or multiple purposes, specify. For example: "Name and address information will be used to communicate with individuals about their benefits, while Name, Service, and Dependent's information will be used to determine which benefits individuals will be eligible to receive. Email address will be used to inform individuals about new services as they become available."</i></p>

y/n?	<b>Veteran's or Primary Subject's Personal Contact Information (name, address, telephone, etc.)</b>
Yes	
<i>Specifically identify the personal information collected, and describe the intended use of the information.</i>	
Name, gender, date of birth, marital status, race, ethnicity, religious preference, social security number, address, phone number, parents names	
Used for patient registration and patient care

No

*Specifically identify the personal information collected, and describe the intended use of the information.*

y/n? **Guardian Information**

Yes

*Specifically identify the personal information collected, and describe the intended use of the information.*

Name, address, phone number of guardians for incapacitated patients.

Used for communication purposes and patient care.

y/n? **Education Information**

Yes

*Specifically identify the personal information collected, and describe the intended use of the information.*

Patient educational information is made available to clinicians treating patients to help understand their medical conditions. Used by Mental Health to develop treatment plans.

y/n? **Rehabilitation Information**

Yes

*Specifically identify the personal information collected, and describe the intended use of the information.*

Rehabilitation information is collected for patients being treated in special programs including strokes, cardiac conditions, head injuries, spinal cord injuries, blindness, alcohol and drugs, PTSD, amputees, functional dependence.

Used for patient care by the clinicians.

y/n? **Other Personal Information (specify):**

No

*The "Other Personal Information" field is intended to allow identification of collected personal information that does not fit the provided categories. ### 5.3 Collection Methods

*Identify and describe how personal information is collected:*

*a) Select all applicable collection methods below. If the provided collection methods do not adequately describe a specific data collection, select the "Other Collection Method" field and provide a description of the collection method. b) For each collection method selected, briefly describe the collection method, and provide additional information as indicated.*

y/n?	<b>Web Forms:</b>	Information collected on Web Forms and sent electronically over the Internet to project systems.
------	-------------------	--

No

*Identify the URL(s) of each Web site(s) from which information will be submitted, and the URL(s) of the associated privacy statement. (Note: This question only applies to Web forms that are submitted online. Forms that are accessed online, printed and then mailed or faxed are considered "Paper Forms.")*

y/n?	<b>Paper Forms:</b>	Information collected on Paper Forms and submitted personally, submitted via Postal Mail and/or submitted via Fax Machine.
------	---------------------	--

No

*Identify and/or describe the paper forms by which data is collected. If applicable, identify standard VA forms by form number.*

y/n?	<b>Electronic File Transfer:</b>	Information stored on one computer/system (not entered via a Web Form) and transferred electronically to project IT systems.
------	----------------------------------	--

Yes

*Describe the Electronic File Transfers used to collect information into project systems. (Note: This section addresses only data collection – how information stored in project systems is acquired. Sharing of information stored in project systems and data backups are addressed in subsequent sections.)*

Patients and their caregivers enter vital measurements and blood glucose levels into Home telehealth devices for entry into VISTA system.

Used for patient care.

y/n?	<b>Computer Transfer Device:</b>	Information that is entered and/or stored on one computer/ system and then transferred to project IT systems via an object or device that is used to store data, such as a CD-ROM, floppy disk or tape.
------	----------------------------------	---

No

*Describe the type of computer transfer device, and the process used to collect information.*

y/n?	<b>Telephone Contact:</b>	Information is collected via telephone.
------	---------------------------	---

Yes

*Describe the process through which information is collected via telephone contacts.*

Telephone triage by Nursing – collects symptoms and information for patient care.

Utilization Review Nurses – precertifications from insurance companies.

y/n?	<b>Other Collection Method:</b>	Information is collected through a method other than those listed above.
------	---------------------------------	--

No

<b>6. Use and Disclosure</b>
<b>6.1 User Access and Data Sharing</b>
Identify the individuals and organizations that have access to system data.

--> *Individuals* - Access granted to individuals should be limited to the data needed to perform their assigned duties. Individuals with access to personal information stored in project system must be identified, and documented assurance must be provided that appropriate policies and procedures are in place to prevent as well as detect unauthorized access and browsing.

--> *Other Agencies* – Any Federal, State or local agencies that have authorized access to collected personal information must be identified, and documented assurance must be provided that appropriate policies and procedures are in place to protect personal information.

--> *Other Systems* – Information systems of other programs or projects that interface with the information system(s) of this project must be identified and the transferred data must be defined. Also, the controls that are in place to ensure that only the defined data are transmitted must be defined.

6.1.a) Identify all individuals and organizations that will have access to collected information. Select all applicable items below.

☐ y/n? **System Users**

Yes

☐ y/n? **System Owner, Project Manager**

Yes

☐ y/n? **System Administrator**

Yes

☐ y/n? **Contractor**

Yes

If contractors to VA have access to the system, describe their role and the extent of access that is granted to them. Also, identify the contract(s) that they operate under.

Transcription vendor types and uploads reports (discharge summaries, operative reports, Compensation & Pension exams) into VISTA. Vendor name – America's Pride  
Contract # V69DP-5378.

☐ y/n? **Internal Sharing: Veteran Organization**

No

If information is shared internally, with other VA organizations identify the organization(s). For each organization, identify the information that is shared and for what purpose.

☐ y/n? **Other Veteran Organization**

Yes

If information is shared with a Veteran organization other than VA, identify the organization(s). For each organization, identify the information that is shared and for what purpose.

VBA data used thru CAPRI.

☐ y/n? **Other Federal Government Agency**

Yes

*If information is shared with another Federal government agency(ies), identify the agency(ies). For each organization, identify the information that is shared and for what purpose.*

Dept. of Defense bi-directional health exchange – used for patient care.

☐ y/n? **State Government Agency**

Yes

*If information is shared with a State government agency(ies), identify the agency(ies). For each organization, identify the information that is shared and for what purpose.*

Illinois State Cancer Registry – cancer diagnosis, staging, and follow-up  
Used for patient care and statistics.

☐ y/n? **Local Government Agency**

No

*If information is shared with a local government agency(ies), identify the agency(ies). For each organization, identify the information that is shared and for what purpose.*

☐ y/n? **Other Project/ System**

No

*If information is shared with other projects or systems:*

*1) Identify the other projects and/or systems, and briefly describe the data sharing. 2) For each project and/or system with which information will be shared, identify the information that will be shared with that project or system. 3) For each project and/or system with which information will be shared, describe why information is shared. 4) For each project and/or system with which information will be shared, describe who will be responsible for protecting the privacy rights of the individuals whose data will be shared across this interface.*

☐ y/n? **Other User(s)**

No

*If information is shared with persons or organization(s) that are not described by the categories provided, use this field to identify and describe what other persons or organization(s) have access to personal information stored on project systems. Also, briefly describe the data sharing.*

6.1.a.1) Describe here who has access to personal information maintained in project's IT

systems:
Healthcare providers
6.1.b) How is access to the data determined?
Level and amount of access determined by Service Chiefs and Supervisors
6.1.c) Are criteria, procedures, controls, and responsibilities regarding access documented? If so, identify the documents.
Employees must sign Usage agreement with defined criteria.
6.1.d) Will users have access to all data on the project systems or will user access be restricted? Explain.
Restricted by position type
6.1.e) What controls are in place to prevent the misuse (e.g. unauthorized browsing) of data by those having access? (Please list processes and training materials that specifically relate to unauthorized browsing)
ISO tracks unauthorized browsing of data.
6.1.f) Is personal information shared (is access provided to anyone other than the system users, system owner, Project Manager, System Administrator)? (Yes/No)
No
<b>Noxte: If you have selected No above, then SKIP to question 6.2, "Access to Records and Requests for Corrections".</b>
6.1.g) Identify the measures taken to protect the privacy rights of the individuals whose data will be shared.
6.1.h) Identify who is responsible, once personal information leaves your project's IT system(s), for ensuring that the information is protected.
6.1.i) Describe how personal information that is shared is transmitted or disclosed.
6.1.j) Is a Memorandum of Understanding (MOU), contract, or any other agreement in place with all external organizations with whom information is shared, and does the agreement reflect the scope of the information currently shared? If an MOU is not in place, is the sharing covered by a routine use in the System of Records Notice? If not, explain the steps being taken to address this omission.
6.1.k) How is the shared information secured by the recipient?
6.1.l) What type of training is required for users from agencies outside VA prior to receiving access to the information?

### 6.2 Access to Records and Requests for Corrections

*The Privacy Act and VA policy provide certain rights and mechanisms by which individuals may request access to and amendment of information relating to them that is retained in a System of Records.*

*6.2.a) How can individuals view instructions for accessing or amending data related to them that is maintained by VA? (Select all applicable options below.)*

	<b>The application will provide a link that leads to their information.</b>
	<b>The application will provide, via link or where data is collected, written instructions on how to access/amend their information.</b>
	<b>The application will provide a phone number of a VA representative who will provide instructions.</b>
<b>X</b>	<b>The application will use other method (explain below).</b>
	<b>The application is exempt from needing to provide access.</b>

**6.2.b) What are the procedures that allow individuals to gain access to their own information?**

Written request and authorization to Release of Information Unit using VAF 10-5345a.

**6.2.c) What are the procedures for correcting erroneous information?**

Written request by veteran to Privacy Officer identifying any inaccurate information and describing the preferred remedy desired. Request is reviewed and a determination made to grant or deny the individual's request. The determination is communicated to the individual. If the request is granted, the record is amended.

**6.2.d) If no redress is provided, are alternatives available?**

If the request is denied, the individual may appeal to VA General Counsel.

**6.2.e) Provide here any additional explanation; if exempt, explain why the application is exempt from providing access and amendment.**

Notice of Access & Amendment is published in System of Records notice for 24VA19 Patient Medical Record – VA.

## 8 SECURITY

OMB Guidance for Implementing the Privacy Provisions of the E-Government Act of 2002, (OMB M-03-22) specifies that privacy impact assessments must address how collected information will be secured.

### 8.1 General Security Measures

8.1.a) Per OMB guidance, citing requirements of the Federal Information Security Management Act, address the following items (select all applicable boxes.):

X	The project is following IT security requirements and procedures required by federal law and policy to ensure that information is appropriately secured.
	The project has conducted a risk assessment, identified appropriate security controls to protect against that risk, and implemented those controls.
X	Security monitoring, testing, and evaluating are conducted on a regular basis to ensure that controls continue to work properly, safeguarding the information.

8.1.b) Describe the security monitoring, testing, and evaluating that is conducted on a regular basis:

Information Security Officer Reviews

8.1.c) Is adequate physical security in place to protect against unauthorized access?

Yes

## 8.2 Project-Specific Security Measures

8.2.a) Provide a specific description of how collected information will be secured.

- A concise description of how data will be protected against unauthorized access, unauthorized modification, and how the availability of the system will be protected.
- A concise description of the administrative controls (Security Plans, Rules of Behavior, Procedures for establishing user accounts, etc.).
- A concise description of the technical controls (Access Controls, Intrusion Detection, etc.) that will be in place to safeguard the information.
- Describe any types of controls that may be in place to ensure that information is used in accordance with the above described uses. For example, are audit logs regularly reviewed to ensure appropriate use of information? Are strict disciplinary programs in place if an individual is found to be inappropriately using the information?

**Note: Administrative and technical safeguards must be specific to the system covered by the PIA, rather than an overall description of how the VA's network is secured. Does the project/system have its own security controls, independent of the VA network? If so, describe these controls.**

Electronic data is stored in secure servers; paper data is stored in locked cabinets.

8.2.b) Explain how the project meets IT security requirements and procedures required by federal law.

VA Directive 6500

8.2.c) Explain what security risks were identified in the security risk assessment.

Refer to Risk Assessments

8.2.d) Explain what security controls are being used to mitigate these risks.

Common security controls and risk based decisions

**9. CHANGE RECORD**

OMB Memorandum M-03-22, OMB Guidance for Implementing the Privacy Provisions of the E-Government Act of 2002, mandates that PIAs address any project/ system changes that potentially create new privacy risks. By completing this section, you provide documented assurance that significant project/ system modifications have been appropriately evaluated for privacy-related impacts.

9.a Since the last PIA submitted, have any significant changes been made to the system that might impact the privacy of people whose information is retained on project systems? (Yes, No, n/a: first PIA)

No

**If no, then proceed to Section 10, "Children's Online Privacy Protection Act."**

**If yes, then please complete the information in the table below. List each significant change on a separate row. 'Significant changes' may include:**

Conversions - when converting paper-based records to electronic systems;

Anonymous to Non-Anonymous - when functions applied to an existing information collection change anonymous information into information in identifiable form;

Significant System Management Changes - when new uses of an existing IT system, including application of new technologies, significantly change how information in identifiable form is managed in the system:

- For example, when an agency employs new relational database technologies or web-based processing to access multiple data stores; such additions could create a more open environment and avenues for exposure of data that previously did not exist.

Significant Merging - when agencies adopt or alter business processes so that government databases holding information in identifiable form are merged, centralized, matched with other databases or otherwise significantly manipulated:

- For example, when databases are merged to create one central source of information; such a link may aggregate data in ways that create privacy concerns not previously at issue.

New Public Access - when user-authenticating technology (e.g., password, digital certificate,

biometric) is newly applied to an electronic information system accessed by members of the public;

*Commercial Sources* - when agencies systematically incorporate into existing information systems databases of information in identifiable form purchased or obtained from commercial or public sources. (Merely querying such a source on an ad hoc basis using existing technology does not trigger the PIA requirement);

*New Interagency Uses* - when agencies work together on shared functions involving significant new uses or exchanges of information in identifiable form, such as the cross-cutting E-Government initiatives; in such cases, the lead agency should prepare the PIA;

*Internal Flow or Collection* - when alteration of a business process results in significant new uses or disclosures of information or incorporation into the system of additional items of information in identifiable form:

- For example, agencies that participate in E-Gov initiatives could see major changes in how they conduct business internally or collect information, as a result of new business processes or E-Gov requirements. In most cases the focus will be on integration of common processes and supporting data. Any business change that results in substantial new requirements for information in identifiable form could warrant examination of privacy issues.

*Alteration in Character of Data* - when new information in identifiable form added to a collection raises the risks to personal privacy (for example, the addition of health or financial information);

List All Major Project/System Modification(s)	State Justification for Modification(s)	*Concisely describe:	Modification Approver	Date
N/A				

\* The effect of the modification on the privacy of collected personal information

\* How any adverse effects on the privacy of collected information were mitigated.

<b>12. PUBLIC AVAILABILITY</b>
The Electronic Government Act of 2002 requires that VA make this PIA available to the public. This section is intended to provide documented assurance that the PIA is reviewed for any

potentially sensitive information that should be removed from the version of the PIA that is made available to the public.

The following guidance is excerpted from M-03-22, "OMB Guidance for Implementing the Privacy Provisions of the E-Government Act of 2002," Section II.C.3, "Review and Publication": iii. Agencies must ensure that the PIA document and, if prepared, summary, are made publicly available (consistent with executive branch policy on the release of information about systems for which funding is proposed).

1. Agencies may determine to not make the PIA document or summary publicly available to the extent that publication would raise security concerns, reveal classified (i.e., national security) information or sensitive information (e.g., potentially damaging to a national interest, law enforcement effort or competitive business interest) contained in an assessment<sup>9</sup>. Such information shall be protected and handled consistent with the Freedom of Information Act (FOIA).

2. Agencies should not include information in identifiable form in their privacy impact assessments, as there is no need for the PIA to include such information. Thus, agencies may not seek to avoid making the PIA publicly available on these grounds.

12.a) Does this PIA contain any sensitive information that could cause harm to the Department of Veterans Affairs or any party if disclosed to the public?

No
